HONORABLE

Our valve technicians are trained in mounting, repairing and servicing valve actuators from a variety of actuation manufacturers,

Sales & Service

Valve Service, Repair and Replacement

Whenever you need valve installation, replacement, valve parts or a major valve repair, call the valve experts. MWMS can rebuild most existing AWWA Butterfly Valves, C507 Ball Valves, Cone Valves, Plug Valves, Rectangular Valves, Gate Valves, Sleeve Valves, Fixed Cone Valves and all types of Operators and make them function as brand new. We stand behind our work by providing a valve warranty with every valve refurbishment.

Our goals at MWMS are to help you avoid costly and unnecessary replacements and minimize cost by repairing your existing products and improve product performance.

MWMS can provide complete valve repair service, repair and rebuild service as well as valve actuation, modification and testing

Leaking Butterfly Valve? Don't buy a new valve. There's a good chance MWMS can stop that leaking seat with our seat injection system repair.

Where not about replacement. Where about solutions.

Yearly Valve and Actuator Maintenance Programs

MWMS Maintenance Program can help avoid unscheduled or un-planned breakdowns, failures and downtime, to minimise crisis situations and therefore to save money on both maintenance and downtime costs.
