

 **Who We Are**

Stackpole Innovations is a family owned and operated company that is passionate about our clients and the industry we serve. We specialize in the sale and service of Valves, Valve motorized operators, Fittings and Field Service Technical Support. With years of experience, our expertise is reflected through our work in the **Municipal Water Management** business. We look forward to partnering with you on your next project.

 **Waterworks Supply**

Whether you are repairing aging infrastructure or building something new, we've got your back for every kind of waterworks project. As a supplier of waterworks products, we offer a complete line of water, sewer and storm drain products to serve contractors and municipalities in all aspects of public works and private construction industries.

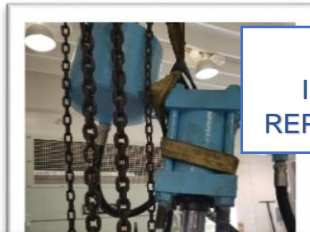

We're here to help you make a difference in building, repairing and maintaining water systems that support population and economic growth, and residential and commercial construction. Because our dependable expertise is local, we make sure our solutions are too, so you can meet your agency and regulatory compliance.
